

AMS.... Building a Better Future for Agribusiness

Advanced

Cassava

Processing Technology

Complete intake and feedstock preparation for the production of feed products for human or animal consumption, modified starches and/or ethanol.

Ethanol Applications:

Equipment

- Automatic Root Receiving
- Soakers
- Pickers
- Pulverizers
- Centrifuges
- Hydro-Cyclones
- Classifiers
- Dryers
- Heat Exchangers
- Pneumatic Handling
- Mechanical Handling

Services

- Process Design
- Detail Design
- Procurement
- Automation
- Installation
- Commissioning
